The content of this Specification is based on typical information for this product and results obtained from our own due diligence sampling, assessment and testing protocols, in addition to any testing/sampling that has been undertaken by our suppliers.

However, due to the nature of this product it is not completely homogenous. Consequently, test results may not be entirely representative of the product throughout the batch. In addition, the content of this Specification does not confirm or ensure that the product is safe for all intended uses, for example, ready to eat.

Our quality and technical documentation does not - in any way – relieve the customer of their responsibilities to check that the goods supplied are suitable and considered safe for their intended use. The data provided is for information only.
