Pyrrolizidine alkaloid (PA)	£190 per test
Ethylene Oxide (ETO)	£165 per test

Liquid Goods Analysis and testing

Total dry solids, specific gravity and alcohol content	£65 per test
Microbiological	£70 per test
Fragrance Allergen	£425 per test
HPTLC ID&QTY	£755 per test
Beta-glucan assay	£385 per test
Polysaccharides	£435 per test
ID&QTY determination	POA
Peroxide Values (for oils/life-extension)	£125 per test

Export

Organic Herb Trading has a long history of successful organic trade underpinned by import and export, and we are proud to support customers globally. As part of our International Sales, we utilise our decades of experience to help facilitate a smooth process and support our customers in navigating the relevant legislation. Below are our charges related to product export, please give us a call to discuss your requirements.

Export Documentation

Endorsed organic export certificate (COI)	£35
Phytosanitary certificate – laboratory examination	£45 per product
Phytosanitary certificate – issue of certificate	£35 per product
Phytosanitary certificate – amendment of certificate	£30
Certificate of origin	£90
EUR1 certificate	£65
Export certificate	£30
Endorsement of document/certificate by embassy	£POA

Vacuum packing

We offer a vacuum packing service to help extend shelf life and reduce shipping volumes – please contact us for a quote.

Currency and VAT

- All prices are GBP, however, we also offer our products and services in EUR and USD – please ask for a currency quote.
- VAT is charged – at the current standard rate - in addition to the prices outlined above.

Product development – NPD/EPD

We work closely with our customers to turn great ideas into fantastic products. With decades of experience our product development service is bespoke to suit the needs of your brand. Project management is offered on a day rate or per product basis, depending on the requirements of the brief.

Please contact us to discuss your ideas and how we can help make them a reality. We can also help introduce you to other key parts of the supply chain such as co-packers, so that your product hits the market exactly how you envisaged it!

New product development (NPD)/existing product development (EPD) fee Once we have agreed a clear brief, we will first share on-paper ideas, before producing kitchen blend samples for you to try. This per product fee includes up to three iterations of samples, so that we hone over time considering your feedback.	£500 per product. <i>Upon placement of your first production order for the approved blend, we will credit £250 per blend against your invoice.</i>
Additional iterations and samples In the uncommon event that a project requires more than three round of feedback and samples, then we charge for each batch of samples produced.	£75 per sample/per blend
Consultancy fee For complex multi-day projects. We will discuss your requirements in detail and provide an estimate of the time required for your project. These projects can include face to face tasting workshops, bespoke sourcing, novel ingredients, or manufacturing innovation.	£850 per day
New product registration and documentation fee. A one-off fee for the creation of a new product's mutually agreed specification and organic registration.	£85 per product (Additional £100 if certifying with the Soil Association)
